Experience

WEBLINC

Front-end Web Developer, October 2017 - Present

Develop client-side technology for the Workarea eCommerce platform in an agile team environment. Collaborate with design, UX and back-end developers to build successful eCommerce sites for industry-leading clientele that push front-end requirements. Act as a user advocate while maintaining a clear understanding of business requirements and scope of the project.

Technologies used: HAML, SCSS, JavaScript/jQuery, Git, Ruby on Rails

INTUITSOLUTIONS

Senior Developer / Team Leader, May 2015 - August 2017

Managed a team of 4 developers. Responsible for enterprise client accounts, and scoping new work. Integral in determining my department's annual goals, KPIs, and metrics. Continued to develop responsive, scalable websites for the BigCommerce platform, as well as work with recurring monthly clients on iterative site optimizations.

Technologies used: HTML, Handlebars, CSS, SCSS, JavaScript/jQuery, Git

INTUITSOLUTIONS

Web Developer/Designer, April 2014 - May 2015

Designed full mockups of custom, responsive websites on the BigCommerce platform, then developed them by hand using SEO and web best practices. Worked with clients in a variety of industries. Developed knowledge of payment gateways, DNS, and domain registrars.

Technologies used: HTML, CSS, JavaScript/jQuery, Adobe Illustrator

Education

Bachelor's Degree: ANIMATION, MINOR IN LITERATURE

Rochester Institute of Technology, Rochester, NY 2008
