

Kristin Everham

Experienced front-end engineer with a track record of successful leadership.

Experience

Software Engineer / Tech Lead

Comcast, November 2021 - Present

Enhance front-end functionality of digital self service tools, primarily xfinity.com/support, which averages 2 million daily user sessions. Acted as tech lead on a large project to relaunch the header and footer of all web properties, which involved significant cross-team collaboration. Helped coach and develop junior engineers, and won a quarterly award for mentorship. Technologies used: React, SCSS, JavaScript, Tailwind, Git

Software Engineer

URBN, July 2019 - October 2021

Implemented features and user interfaces for a custom eCommerce platform that powered multiple brands. Collaborated with designers, product managers, and other engineers to deliver compelling user-facing products. Identified and resolved performance and scalability issues. Technologies used: Vue, SCSS, JavaScript, Python, Git

Front-end Engineer / Project Lead

WebLinc, October 2017 - July 2019

Developed client-side technology for the Workarea eCommerce platform in an agile team environment. Collaborated with design and back-end team members to integrate server and client-side technologies; architected and implemented industry-leading functionality; and managed client requests. Worked as lead front-end engineer on final build project. Technologies used: HAML, SCSS, JavaScript/jQuery, Ruby on Rails, Git

Web Developer / Team Lead

IntuitSolutions, April 2014 - August 2017

Developed custom, responsive websites on the BigCommerce eCommerce platform for clients in a variety of industries. Developed knowledge of SEO, payment gateways, DNS, and domain registrars. Occasionally worked to design mockups for sites. Eventually managed a team of 4 developers. Integral in determining my department's annual goals, KPIs, and metrics. Technologies used: HTML, Handlebars, CSS/SCSS, JavaScript/jQuery

Skills

React, Vue, JavaScript, HTML, CSS/SCSS, HAML, Handlebars, jQuery, Git, JIRA, Ruby on Rails, Python, Adobe Creative Suite, Ecommerce, Agile, UI/UX

Education

Bachelor's Degree: Animation, Minor in Literature
Rochester Institute of Technology, Rochester, NY 2008
